Forecast for Saturday 11 Jun 2022

Weather: Mainly cloudy overnight with frequent showers continuing, particularly for hills in Wester Ross possibly a few clearer spells further east around Glen Affric. During the morning there will be a few bright or sunny spells but frequent showers for most areas, showers will be heavy at times with a rumble of thunder possible but are likely to move through quickly in the strong winds. A windy day with widespread summit severe gales especially strong around lunchtime. Showers will group together to give longer spells of rain at times.

Chance of cloud-free hill tops above 800m: 40% scattered or broken low cloud at times around showers making navigation difficult.

Low cloud and visibility: Good general visibility but visibility dipping to moderate or poor temporarily in showers. Cloud will lower to 4-500m in heavier showers and may become broken for a time when showers group. In the east cloud will dip to 5-600m in showers for a short time.

Met Office Aberdeen Meteorologist's View

An unseasonably windy day, with widespread summit severe gales and storm force gusts above 70mph possible on the higher munros perhaps around heavier showers, it will feel cold in the stronger winds with a significant windchill.

Forecast for Sunday 12 Jun 2022

Weather: A mainly dry and bright day with strong winds continuing, a few showers developing but these moving through quite quickly and short lived.

Maximum wind: West or southwesterly 25-30mph with gusts 30-40mph

Chance of cloud-free hill tops above 800m: 80%, some patchy low cloud at times but generally clear summits.

Low cloud and visibility: Good visibility is expected but it may dip in any showers.

Temperature: **Glens:** Plus 7 rising to 13 Celsius.
At 800m: Plus 3 rising to 6 Celsius.
Freezing level: Above all summits falling to 1200m.
